PERCUSSION

JOEY REARDON

WORDS OF WISDOM FROM GRADUATING SENIORS

Rodney Freeman

I will be attending Ole Miss majoring in Law studies and minor in Pre-Law. My most memorable experiences from MICDS are me making friends, and late nights out with those same friends, being able to have new experiences, sport events, playing and learning music and much more. My advice to future band students are to make connections with the people you play with you never know who could become one of your closest friends or a friend you only meet because you decided to learn more about something they are passionate about.

Celia Swiston

What are your plans after graduation?
After graduation, I plan to study physics and mathematics at the University of Missouri in Columbia. Alongside my academics, I will continue to practice flute and piano, and I am hoping to get involved in ensembles on campus to continue performing and improving. Even as I focus on STEM, I want music to remain a constant in my life. Ultimately, I want to explore where studying physics can take me, whether that's research, industry, or another field.

What is one of your most memorable experiences from MICDS?

One of my most memorable experiences from my time in MICDS band was the Music in the Parks competition, where high school bands played for judges and then headed to Six Flags for the awards. It was rewarding to prepare for the competition and then perform together, and overall a great mix of hard work and fun. The experience captured the energy and sense of accomplishment that I'll remember most about being in band.

What is your advice for future band students?

My advice to future band students is to focus on consistency rather than perfection. Regular, thoughtful practice will take you very far; it's important to stick with it and stay patient despite mistakes. Even if progress feels slow in the short term, you will look back in a few years and be amazed at how much you've improved.

WORDS OF WISDOM FROM GRADUATING SENIORS

Yule Zhang

I am going to WashU majoring in Neuroscience. My most memorable experience is hanging out with my friends in Hearth. My advice for future band student is to love practice outside of classes.

Thank You

FOR SUPPORTING THE BAND PROGRAM

Thank you to the Band Parents Booster Program, the Arts Department, Administration, Faculty & Staff, Facilities, Maintenance, & AV Departments, plus the wonderful Band Students. Please join us for a reception between the Middle School and Upper School concert. If you would like a printed copy of tonight's concert program, please contact Mr. Berry.

Have a wonderful summer!

2026
